**Subject:** Re: Oil industry outreach meetings

David,

This sounds fine for aquifer exemptions. I can bring the DOGGR timeline for initial delivery to State Water Boards for framing.

Unless Rock was specific about talking only about aquifer exemption, I suspect that they will also have interest in other multi-agency processes such as UIC, well stim, project by project reviews and our interface to the Kern County CEQA process. I realize that US EPA may not have a role in some of these. I would anticipate questions on process, timelines, cooperation and handoffs and contingencies for schedule disruptions if there are any of either (contingencies and schedule disruptions that is).

I would not list these topics in the statement of purpose but leave the agenda open to other topics, and we should be prepared to answer questions if it comes up.

Bill

Rock Zierman (CIPA) had asked us to send him a brief statement of the purpose of the industry outreach meetings we've discussed, now tentatively scheduled for the morning of July 7<sup>th</sup> in Bakersfield. Below is a brief statement of purpose that we are planning to send to Rock later today. WSPA has also expressed an interest in being involved, so we are going to send this to Bob Poole of WSPA as well. Please let me know if you have any suggestions/concerns with the proposed language. Thanks, David

## **Outreach meetings with USEPA, CA DOGGR, and CA State Board**

Representatives of the three agencies will participate in informal discussions about aquifer exemptions in CA with oil/gas industry personnel. The sessions will provide an opportunity for the agencies to answer questions about the aquifer exemption process, discuss roles and responsibilities of the state/federal agencies, and clarify upcoming regulatory deadlines. It will also provide an opportunity for the agencies to hear from the industry about their perspectives, specific concerns, and any suggestions for improvements to the current aquifer exemption review process.
